Bally SENTE

S·A·C·I

The SENTE ARCADE COMPUTER is a coin-operated game system designed for easy interchangeability. All electronic components are housed in a slide out tray that is fully serviceable from the front. Games can be changed by changing a cartridge and control panel (this takes no tools) and the attract plex (this takes a screwdriver). A superior sound system and graphic capability round out the hardware system.

Physical Characteristics:

Upright 72" height, 25" width, 34⅞" depth
Voltage: 115V 3 amps maximum
